Some states have special authorizations for meat processing to set up the deer processing facilities ... they are virtually an authorization by rule.

Brent – are you good being the point of contact for NPDES for Randy to give to ODEQ?

If total retention or irrigation disposal or hooked to POTW so no discharge to WOTUS no NPDES permit needed.

If discharge, Meat packing has ELGs at 40 CFR 432 that all appear to have NSPS that would trigger NEPA

Brent and Maria,

Do we have a role? Based on the description not sure there is a discharge.

Subject: Meat Packing Plant in Muscogee Creek Nation

Greetings,

We have a new meat packing plant in the Muscogee Nation that is on Trust land. They did not get any permits from us (that I am aware of) and will have

industrial impoundments. To whom do we need to refer this to at EPA for permitting/possible enforcement(Someone in Water?)? We have an environmental law group making inquiries and concerned neighbors. Any guidance you could give as to whom to contact would be great.

Thanks,

Trevor
